SAGA FURS OYJ

INTERIM REPORT FOR 1 November 2015 to 30 April 2016

Vantaa, 28 June 2016 at 4:00 p.m.

SAGA FURS OYJ REPORTS CLEAR LOSSES FOR FIRST HALF OF THE YEAR

- The total value of sales in the financial period 1 November 2015–30 April 2016 decreased by 62 per cent and amounted to EUR 137 million (MEUR 360 for the previous corresponding period).
- In the financial period, the company sold only 4.5 million fur pelts (5.4 million in the previous corresponding period), as a large amount of fox pelts were left unsold in the December and March auctions.
- The price level of both mink and fox pelts decreased over 50 per cent compared with the previous corresponding period.
- Consolidated net turnover fell by 44 per cent year-on-year, standing at EUR 18.3 million (MEUR 32.9).
- Operating expenses remained at the previous year's level, EUR 30.0 million (MEUR 30.2).
- Consolidated operating loss was EUR -11.0 million (MEUR +3.3).
- Consolidated net financial income decreased by half year-on-year and totalled EUR 1.5 million (MEUR 3.3).
- Consolidated loss before taxes stood at EUR -9.4 million (MEUR 6.6).
- Consolidated operating loss for the first 6 months of the financial year was EUR -9.5 million (MEUR +5.1).
- Earnings per share for the six-month period amounted to EUR -2.63 (EUR 1.41).
- On 27 January 2016, Saga Furs Oyj issued a negative profit warning: the consolidated result is expected to remain clearly lower than that of the previous financial year and probably show loss.
- On 19 April 2016, Saga Furs Oyj published a stock exchange release stating that
 the company started statutory cooperation negotiations in Finland with the aim of
 renewing its organisation and streamlining its operations in order to secure its
 future competitiveness. The personnel savings targeted by the statutory
 negotiations were around one million euros per year.
- On 9 June 2016, Saga Furs Oyj issued a negative profit warning, according to which the company expects its result for the financial year to show clear loss.

Accounting principles

This interim report was prepared in accordance with the IAS 34 Interim Financial Reporting.

This report has been prepared in accordance with the same accounting principles as the financial statements dated 31 October 2015.

The Securities Market Act no longer includes a requirement to present future prospects in interim reports. Future prospects are presented in the annual report in accordance with the Accounting Act. However, the company has decided to continue to present future prospects in its interim reports for the time being. Any changes to this practice will be communicated separately.

The information presented in this interim report is unaudited.

Sales for the period 1 November 2015 - 30 April 2016

Saga Furs Oyj held the first auction of the financial year from 19 to 21 December 2015. Saga® fox and Finnraccoon pelts and Karakul lamb pelts were sold at this auction. Unlike previous sales periods, mink pelts were not offered until the March auction. The downturn of the economic growth rate in China and the ongoing difficulties in the Russian economy were clearly reflected in the sales results, and only a little over one-third of the pelts were sold at the auction. The company sold a total of little less than 100,000 fox pelts (190,000 at the corresponding auction in the previous year), 100,000 Karakul lamb pelts (97,000) and 30,000 Finnraccoon pelts (18,000). The value of sales at the auction totalled EUR 12.4 million (EUR 49.5 million in December 2014, at the auction where also 490.000 mink pelts were sold).

Saga Furs Oyj held the second auction of the financial year from 8 to 18 March 2016, in cooperation with the North American auction houses American Legend and Fur Harvesters. A total of 3.7 million mink pelts (3.6 million at the corresponding auction in the previous year), 490,000 fox pelts (780,000), 49,000 Karakul lamb pelts (97,000) and 53,000 Finnraccoon pelts (45,000) were sold at the auction by Saga Furs Oyj. A little under 60 per cent of the offered Saga® blue fox pelts were sold. The value of this auction's sales was EUR 124 million (MEUR 308). The long-lasting fur trade boom has led to a situation in which the global supply of fur pelts exceeds demand. Even though fur is still in fashion, the economic challenges prevailing in key market regions have reduced demand, and the price levels of both mink and fox pelts fell to one-half of the previous six-month period's level.

Between November and April, a total of 3.7 million mink pelts (4.1 million in the previous corresponding period), 600,000 fox pelts (1.0 million), 150,000 Karakul lamb pelts (190,000) and 83,000 Finnraccoon pelts (63,000) were sold by the company. Due to the 50% decrease in the price level and the lower amount of pelts sold, the value of sales fell by 62 per cent, totalling EUR 137 million (360 MEUR).

Auction	Sales	Value	Sales	Value
	1,000 pelts	EUR 1,000	1,000 pelts	EUR 1,000
	2015/2016	2015/2016	2014/2015	2014/2015
December	229	12,433	795	49,480
March	4,273	123,971	4,540	307,985
Warehouse sales	18	936	24	2,896
Total	4,520	137,340	5,359	360,361

Financial performance

The strong decline of pelt prices and decrease in the amount of pelts sold were reflected in the consolidated net turnover, which decreased by 44 per cent during the first half of the financial year, amounting to EUR 18.3 million (MEUR 32.9). Of the net turnover, 46 per cent was made up of commission fees collected from buyers, 27 per cent from those collected from producers and 22 per cent from sales of pelting services and animals. Other operating income increased by 18 per cent and amounted to EUR 740,000 (EUR 630,000). Other operating income include EUR 560,000 of profits from sales of investments that were available for sale, whereas in the previous year, this item included EUR 470,000 of recovered buyer credit losses.

Operating expenses for the six-month period remained at the previous year's level and totalled EUR 30.0 million (MEUR 30.2). Expenses are emphasised during the first six months of the financial year due to the acquisition of pelts, logistics and grading. Since unsold pelts are not included in the company's inventories, the expenses incurred from pelt acquisition, logistics and grading impose a direct burden on financial results. Operating expenses include credit losses of EUR 1.4 million recorded for receivables from buyers (EUR 5,800). Due to the market situation in Russia, a major customer of the company became insolvent, and the decrease in the value of the pelts as security for receivables exceeds the value of the supplementary security received from the customer. Expenses related to international lobbying through IFF and Fur Europe decreased from the previous year, totalling EUR 0.6 million (MEUR 1.7).

Due to the strong decline in prices and decrease of the amount of pelts sold, the consolidated operating result showed clear loss, EUR -11.0 million (MEUR +3.3).

Consolidated net financial income declined by 53 per cent, totalling EUR 1.5 million (3.3 MEUR). This was mainly due to a decrease in net interest income.

Consolidated loss was EUR -9.4 million (MEUR +6.6) before taxes and EUR -9.5 million (MEUR +5.1) after taxes. Return on equity was -10.7 per cent (+5.6 per cent), with earnings per share amounting to EUR -2.63 (+1.41).

The Group's equity ratio at the end of the review period was 39.6 per cent (42.7 per cent at the end of April 2015 and 44.5 per cent on the closing date of 31 October 2015). The Group's liquidity remained at a healthy level throughout the review period. The consolidated balance sheet total was EUR 223.7 million (MEUR 234.3 on 30 Apr 2015 and MEUR 227.8 on 31 October 2015). Equity per share was EUR 22.63 (EUR 25.71 on 30 Apr 2015 and EUR 26.38 on 31 October 2015).

On 27 January 2016, Saga Furs Oyj issued a negative profit warning, stating that the consolidated result was expected to remain clearly lower than that of the previous financial year and probably show loss. According to the profit warning, the likely price development of the financial year's upcoming auctions was very difficult to estimate based on the first international auctions held in the sales season 2015–2016. However, it was estimated that the international prices of both mink and fox pelts would remain below the previous year's level.

As was announced in the stock exchange release published on 19 April 2016, Saga Furs Oyj started statutory cooperation negotiations in Finland with the aim of renewing its organisation and streamlining its operations in order to secure its future competitiveness. The personnel savings targeted by the statutory negotiations throughout the Group, including the international organisation, were around one million euros per year.

Capital expenditure and development

Consolidated gross capital expenditure for November to April totalled EUR 1.7 million (MEUR 5.2), or 10 per cent (16 per cent) of net turnover. The biggest investments were made in grading automation and equipment and IT applications, such as the live.auction application supporting auctions, and the company's new extranet application.

Shares and share performance

Saga Furs Oyj's share capital totalled EUR 7,200,000 at the end of the review period and the number of shares stood at 3,600,000, of which 900,000 were Series A shares and 2,700,000 Series C shares.

The value of shares traded in November to April totalled EUR 4.8 million and the volume was 290,000 shares, representing 11 per cent of the company's Series C shares. The highest price of the share during the period was EUR 19.59 and the lowest price was EUR 14.23, with the average price being EUR 16.75. The shares closed at EUR 15.05. The company's market capitalisation stood at EUR 54.2 million on 30 April 2016.

A list of the company's largest shareholders as of 30 April 2016 is available for viewing on the company's website.

Personnel

The number of permanent Group staff in the review period averaged 169 (161 in the previous corresponding period) and fixed-term employees 350 (339). At the end of the period, the Group employed 407 individuals (406).

Tia Matthews has been appointed Business Director for Fashion and member of Saga Furs Oyj's management team as of 15 February 2016.

General Meetings

The Annual General Meeting of Saga Furs Oyj held on 21 April 2016 approved the financial statements for the financial year ending on 31 October 2015 and decided to

distribute a dividend of EUR 1.00/share, totalling EUR 3,600,000, and to transfer EUR 645,000 to the counter-cyclical budgetary fund.

Kenneth Ingman, Lasse Joensuu, Jorma Kauppila, Anders Kulp, Virve Kuusela, Pentti Lipsanen, Hannu Sillanpää and Rainer Sjöholm were elected to the Board of Directors. Following the AGM, Jorma Kauppila was elected Chair and Kenneth Ingman Deputy Chair of the Board of Directors at the first meeting of the Board. Ernst & Young Oy will continue as the company's auditor.

Seasonal variation

Saga Furs Oyj holds four auctions over the course of the 12-month sales period. The timing and volumes on sale at auctions vary from year to year. Consequently, fluctuations in the value of sales, net turnover and costs relative to the comparative period may not provide an accurate picture of the development over an entire financial year.

Business risks and uncertainties

The most significant business risks and uncertainties are described in the Board of Directors' report for the financial year 1 November 2014 to 31 October 2015.

Financial risk management is explained in Note 25 to the consolidated financial statements.

Significant events after the review period

The statutory cooperation negotiations concerning Saga Furs Oyj's personnel were concluded on 12 May 2016. The goal was to renew the organisational structure, streamline operations and generate personnel savings of approximately one million euros per year throughout the Group, including the international organisation. Pursuant to the negotiations, the targeted savings were accomplished, and the decisions affected the employment relationship of 17 employees throughout the Group. The savings impact will be fully effective in the financial year starting on 1 November 2016. During the current financial year, savings will be gained, as most of the Group's Finnish employees decided to trade their holiday bonuses for extra time off and foreign employees decided to take unpaid leave.

Saga Furs Oyj arranged an auction in cooperation with the North American auction house American Legend on 8–17 June 2016. The auction was mainly driven by buying from China, and the value of sales grew to nearly EUR 126 million (MEUR 220 at the corresponding auction in the previous year). Nearly 600 buyers attended the auction, and a total of 2.9 million mink pelts (3.3 million), 830,000 fox pelts (650,000), 29,000 Finnraccoon pelts (31,000) and 24,000 Karakul lamb pelts (34,000) were sold at the auction.

On 9 June 2016, Saga Furs Oyj issued a negative profit warning, according to which the company expects its result for the financial year to show clear loss. During the financial year 2015–2016, the supply of blue fox has clearly exceeded demand, and the current market situation does not allow the company to offer all remaining blue fox pelts in the last auction of the financial year, which will be held in September.

Due to the heavy decline in fox pelt prices, the company's sales profits will decrease more than was estimated. In addition, the transfer of pelt sales to another financial period will also clearly deteriorate the company's profits. Saga Furs Oyj does not own the pelts sold by it, and therefore they are not included in the company's inventories. For this reason, the expenses incurred from the acquisition, transportation, grading and storage of pelts will be reported for the current financial year, whereas the profits from their sales will only be reported for the financial year during which they are sold.

Prospects for the rest of the financial year

Saga Furs Oyj will arrange the final auction of the financial year in September. In this auction, approximately 730,000 fox pelts and 1.2 million mink pelts, most of which representing a lower quality, will be offered. The development of the market conditions depends, first and foremost, on the start of raw material and garment trade in China during the summer and the autumn. The Russian markets are not expected to pick up significantly in the short term.

Costs of the six last months of the financial year are estimated to remain lower than those of the corresponding period last year. The advance breeding fees payable to producers in the spring and autumn are lower than a year ago, which has an impact on consolidated net financial income. Consolidated results for the financial year are estimated to show a clear loss.

% of net turnover	9,5 %	15,8 %	11,3 %
Average number of personnel	520	500	382

Principles for calculating key performance indicators:

Return on equity (ROE)-%	=	Profit/Loss for the financial period x 100 / shareholders' equity *)
Retun on investment (ROI)-%	=	(Profit/Loss before taxes + interests and other financial costs - credit losses) x 100 / (balance sheet total - non-interest-bearing short-term liabilities) *)
Equity-to-assets ratio, %	=	Shareholders' equity x 100 / (balance sheet total - advances received)
Gearing	=	(Interest-bearing borrowed capital - cash and securities and financial securities) / shareholders' equity
Earnings per share, EUR	=	Profit/Loss for the financial period / adjusted average number of shares
Equity per share, EUR	=	Shareholders' equity / adjusted number of shares on the balance sheet date

^{*)} The divisor applied to the key performance indicators is calculated as the average of the numbers in the balance sheet of the financial period and of the previous financial period.
